To Whom It May Concern:
On Site Coordinators

EPA review completed November 6, 2008 indicates that PetroGuard and PetroLite meet the definition of a "sorberent" as specified in Title 40 of the Code of Federal Regulations of the National Contingency Plan.

PetroGuard for chemical spill response is a sorberent material and consists solely of the materials listed in section 300.915(g)(1) of the NCP.

PetroLite for oil spill response and remediation is a sorberent material and consists solely of the materials listed in section 300.915(g)(1) of the NCP.
